

Lowe Brothers

After Haying Do that Painting

When you do it this time, use an honest-to-goodness paint that has lastingness. You never saved a cent by using a cheaper paint than Lowe Brothers High Standard. Even if it did cost less per gallon, you had to buy more gallons, and it took too long to apply. You'll save money by doing your painting now. You'll make money by using High Standard. Come in and ask for a detailed explanation.

Arabia.

Arabia is a peninsula in the south-west of the Asiatic continent, forming the connecting link between Asia and Africa, lying between the Persian gulf and the Gulf of Oman on the east and the Red sea on the west, the two continents being united at the Isthmus of Suez. Arabia is divided into many kingdoms and principalities, each of which has its own capital, as follows: The kingdom of Hejaz, with Mecca as its capital; the emirate of Nejd and Hasa, with Riyadh as capital; the principality of Kuwait, with Kuwait as capital; the sultanate of Oman, with Muscat as capital; the emirate of Jabel Shammar, with Hail as capital; the emirate of Asir, with Abha as capital, and the imamate of Yemen, with Sana'a as capital.

Always a Way.

"My husband won't buy me a jeweled dog collar."

"There's a way to get it."

"Huh?"

"Keep growling."

Always Happens.

"Sometimes I bring my lunch with me."

"Well?"

"Those are the days you get invited out."

Maybe.

"The cherry tree was once revered."

"And is yet, I trust. What you driving at?"

"Maybe in these days we pay too much attention to the plum tree."

THIN PEOPLE NEED BITRO-PHOSPHATE

All that most weak, nervous, thin, mentally depressed people need is ten grains of pure organic phosphate with each meal for a few weeks. That's what horse specialists in London, Paris and New York are prescribing with wonderful results. It is natural food for nerve and brain cells and is known to such reliable pharmacists as W. L. Gokay, as Bitro-Phosphate. Because of its power to help create healthy flesh and strengthen weak nerves, much of it is being sold to people who are lacking in vitality.

CAUTION: Although Bitro-Phosphate is an excellent aid in relieving weak, nervous conditions, its use is not advised unless increased weight is desired.

What Are We Doing in Clothing

This is what we did, as you know, cleaned out at one big sale every piece of war clothing in the store. TOOK OUR LOSS IN A LUMP and started all over on the market which has dropped nearly forty per cent.

All former \$60 Suits are now \$37.50 and so on down the line.

We have no more war goods to dispose of—not a single article. The consequence is what ever you find here is at bed rock.

All trousers about half 1920 price.

All suits about 40 per cent less.

Shirts at half.

Hats almost one half.

Now in Boys' Equipment

the same tremendous cuts have been made until it has become a pleasure to do business.

Besides

the big cuts in prices there is yet another factor, the far superior qualities that could not be had under war conditions.

There is one thing, however, we will not do—that is allow any of the great stocks of inferior merchandise to come into the store except we mark it in

RED INK as a Bull's Eye Bargain

This class of goods is under standard in every way and so sold by us. The price is far under what most merchants are getting for it.

"Gosh! That's the kind of stuff for a bank roll."

Softened.

"I see you have a new office girl."

"No; it's the same girl. She blonded her hair."

"But when I called you over the telephone this morning her voice sounded different."

"Ah! She's in love now."
